

2 Beds, 2 Baths - 1,224 sq/ft - \$839,000

Sit back on the balconies and admire sparkling ocean views or take a stroll to the water and search for Sand dollars. Enjoy a morning surf or a gorgeous sunset swim; it doesn't get any better than this. The layout was designed for family living with a generous open-plan design providing two bedrooms, a sitting room that offers room for a sofa sleeper and two bathrooms. In the kitchen, custom-made white shaker cabinetry with adjustable shelving and under-cabinet LED lights sit alongside Costa Esmeralda granite slab counter-tops and travertine tumbled backsplash with marine life accents. Built-in stainless steel appliances including a Thermador refrigerator, a Bosch dishwasher, a Viking range, and a microwave are included for your convenience, plus a movable island and 18 x 18 seashell antiqued limestone flooring that can hide any sand coming in. Special financing available.
