Webster defines 'sanctuary' as a place of refuge and protection. Now, discover your own private sanctuary. On Elkhart Lake. This secluded estate is nestled on top of a lush hill surrounded by manicured lawns, fenced pastures and towering pines. The grounds include a 14,000 square foot main house, six stall stable, race car shop, outdoor kitchen, gazebo and, most importantly..... a lakefront lot with a dock on Elkhart Lake - A truly incomparable turn key estate that has been meticulously maintained by its current owners. Adjacent to Shoreland Farm is the historic Fischer Homestead.....51 acres of rolling meadows with a dairy farm compound dating from 1865. A Cream City brick farmhouse and a stone Summer Kitchen displayed in the pages of Vogue magazine dominate the pristine landscape. Now available from the Fischer family for the first time in over 150 years.
